Rohan Raj Gautam

Lead Software Engineer · Web & Mobile

Kathmandu, Nepal | rohanrajgautam@gmail.com | github.com/rohanrajgautam | linkedin.com/in/rohanrajgautam | rohanrajgautam.com.np

Summary

Lead Software Engineer with 6+ years of experience delivering scalable web and mobile applications for startups and growth-stage companies. Currently leading development of a React Native fintech platform on iOS and Android, while architecting backends (NestJS, Django) and frontend (Next.js) web applications. Proven track record of building products from zero to launch, scaling systems to support thousands of users, and driving engineering excellence through architecture, mentoring, and end-to-end product ownership.

Education

Tribhuvan University — KIST College of Management Kathmandu, Nepal
Bachelor of Information Management (BIM) 2017 – 2022

- CGPA 3.68 / 4.00 · First Division · 126 credit hours
- *Relevant coursework:* Data Structures & Algorithms, Computer Organization, Database Management Systems, Client-Server Computing, Data Communication & Computer Networks, Advanced Internetworking, Software Engineering, Object-Oriented Analysis & Design, Software Project Management, Computer Security & Cyber Law, Artificial Intelligence, Java Programming, Discrete Mathematics, Business Statistics
- *Awards:* Merit scholarship for ranking first in cohort, third semester · First Place, The Grand IT Visual Quiz (2019)

Technical Skills

Languages	TypeScript, JavaScript, Python, SQL, Bash
Frameworks	React, React Native, Next.js, NestJS, Node.js, Django, Flask, Celery, Tailwind CSS
Data	PostgreSQL, MongoDB, DynamoDB, MySQL, Redis, Elasticsearch, Firebase, GraphQL
Cloud & Infra	AWS (Lambda, API Gateway, EC2, S3, Amplify), Docker, Linux, CI/CD, Git
Practices	Distributed system design, mobile release engineering, Agile/Scrum, code review, mentoring

Professional Experience

Tirios Corporation Austin, TX (Remote)
Lead Software Engineer Sep 2023 – Present

- Architected the **Tirios Invest** React Native platform from inception to production and launched it on iOS and Android; now used by thousands of investors to buy, sell, and manage real-estate holdings
- Own the full mobile lifecycle: architecture, performance optimization, CI/CD pipelines, and App Store / Play Store submissions, maintaining 97%+ crash-free sessions across 40+ releases
- Maintain serverless NestJS backends on AWS (Lambda, API Gateway, S3) integrating payments, authentication, and analytics; reduced transaction failures by ∼30%
- Scaled the platform from hundreds to thousands of users by shipping Next.js product features and conversion-optimized pages with product and growth teams
- App Store · Google Play · tirios.ai

Webpoint Solutions, LLC Kathmandu, Nepal
Senior Software Engineer Jun 2022 – Dec 2023

- Delivered **Ellen4All**, a multilingual translation platform serving users in 100+ languages, building an asynchronous content pipeline with Django, Celery, Redis, and Elasticsearch behind a Next.js frontend · tegw.egwwritings.org
- Shipped UI features, audio transitions, and NestJS backend integrations for **Luminate**, an immersive-audio React Native app on iOS and Android · luminateapp.io
- Led small cross-functional teams across multiple products and stacks, owning delivery from requirements through production release
- Mentored junior and mid-level engineers through structured code reviews and weekly knowledge-sharing sessions

Software Engineer Mar 2021 – Jun 2022

- Developed and maintained client web applications with React, Next.js, TypeScript, and Tailwind CSS; built Django and Node.js REST APIs backed by PostgreSQL and MongoDB
- Contributed to sprint planning, estimates, and retrospectives in Agile teams

Yotcha Services Pvt. Ltd. Kathmandu, Nepal
Associate Full-Stack Engineer May 2020 – Apr 2021

- Developed full-stack web applications in React, TypeScript, Django, and PostgreSQL, building REST APIs and delivering client features from design through deployment

Selected Projects

Lineage Journey — *Multimedia history-education platform* 2021 – 2022

- Built a content-driven web platform with CMS-backed episodes, GraphQL data layer, and Stripe-powered payments
- **Stack:** JavaScript, Gatsby, React, Apollo, Prismic, Node.js, Stripe, GraphQL lineagejourney.com

OnTourism Academy — *Real-time academic social platform (freelance)* 2024 – 2025

- Built end to end as an installable PWA with real-time messaging, notifications, and events
- **Stack:** React, TypeScript, MongoDB, Firebase, PWA ontourism.academy

CIBER — *Web vulnerability scanner (undergraduate final-year project)* 2021 – 2022

- Full-stack scanner that takes a target URL, orchestrates multiple security tools behind a single API, normalizes untrusted output, and returns structured JSON plus a plain-text report
- **Stack:** React, Python, Flask, Docker, Zustand github.com/RohanRajGautam/ciber

Teaching & Leadership

Jawafdehi Nepal
Founding Member & Board Member Jan 2026 – Present

- Founding board member of an open-source civic-tech platform that records and tracks corruption cases in Nepal so that the public can follow them from report to resolution
- Contributed to the platform's early development and technical direction; help set engineering priorities and onboard volunteer contributors

Kingsway Academy Kathmandu, Nepal
Instructor, Full-Stack Development Jan 2023 – Mar 2023

- Designed and delivered a full-stack curriculum (HTML, CSS, JavaScript, Node.js) for students entering the industry, taking them from first web page to a deployed project
- Ran weekly live sessions, code reviews, and assessments, and mentored students one-on-one in debugging and problem-solving

Rotaract Club of Metro City Lalitpur, Nepal
President (Jun 2026 – Present); Member since Jun 2023 Jun 2023 – Present

- Lead a Rotary-sponsored club of 30+ young professionals: set the annual plan, run board meetings, and represent the club to Rotary and partner organizations
- Oversee community-service projects and professional-development sessions for members, including fundraising and external partnerships
