## Skills & Stack

---

**Languages:** JavaScript, TypeScript, Python, SQL, Bash/Shell  
**Frontend:** React, Next.js, React Native, Tailwind CSS, Webflow, WordPress  
**State & Data:** React Query, GraphQL, REST APIs  
**Backend:** Node.js, NestJS, Django, Flask  
**Databases:** PostgreSQL, MongoDB, MySQL, DynamoDB  
**Cloud & DevOps:** AWS (EC2, S3, Amplify), Docker, Kubernetes, CI/CD  
**Systems & Process:** Linux, Scrum, Agile Development

## Experience

---

### Tirios Corporation

Austin, Texas (Remote)

*Lead Software Engineer*

Sep 2023 – Present

- Architected and built the **Tirios Invest** mobile app from scratch using React Native, enabling users to buy, sell, and manage real-estate investments across iOS and Android
- Owned the end-to-end mobile lifecycle, including architecture, performance optimization, CI/CD, and App Store and Play Store releases, achieving 95%+ crash-free sessions
- Built and integrated backend and cloud services using NestJS and AWS (Lambda, API Gateway, S3), along with payments, authentication, and analytics, reducing transaction failures by ~30%
- Contributed across the full stack with Next.js web development and Webflow marketing pages, partnering with product and growth teams to scale the platform from hundreds to thousands of users

### Webpoint Solutions, LLC

Kathmandu, Nepal

*Senior Full Stack Engineer*

Mar 2021 – Dec 2023

- Built the **Ellen4All Translation System**, a scalable multilingual content editing and translation platform using React, Django, Celery, Redis, and Elasticsearch, supporting a global user base
- Contributed to the **Luminate Mobile App**, a React Native immersive audio platform, delivering UI features, smooth transitions, and backend integrations with NestJS
- Developed **OnTourism Academy**, a full-stack academic social platform using Next.js and TypeScript, featuring real-time notifications, messaging, events, PWA support, and data visualization backed by MongoDB
- Accelerated team productivity by actively mentoring junior and mid-level engineers through code reviews, knowledge-sharing sessions, and hands-on technical support

### Yotcha Services Pvt. Ltd.

Kathmandu, Nepal

*Associate Full Stack Engineer*

May 2020 – Apr 2021

- Developed React frontends and Django REST APIs for production systems
- Developed multilingual book-reading platforms using React.js and Firebase with custom i18n.

## Education

---

### Kathmandu Institute of Science & Technology (KIST) - TU

Kathmandu, Nepal

Bachelor of Information Technology Management

2017 – 2021

**Relevant Coursework:** Data Structures & Algorithms, AI, OS, OOP (Java), DBMS, Networking

**Award:** First Place — The Grand IT Visual Quiz (2019)

## Leadership & Volunteer Experience

---

### Rotaract Club of Metro City

Lalitpur, Nepal

*President*

Jan 2021 – Present

- Led club operations, strategic planning, and cross-organization collaborations
- Managed fundraising initiatives and community programs focused on education and youth empowerment
